

# TECHNICAL DATA SHEET

## CONCEPT GLASS PROMOTER (FOR GLASS SPLASHBACKS)

### PRODUCT DESCRIPTION

This newly developed Concept Glass Promoter is an adhesion promoter, specifically designed to adhere to glass substrate. It is ready for use, has good flow properties.

- Can be used in conjunction with No Mix Basecoat and Unicolour 600 2K Colours.

### PRODUCT AND ADDITIVES

- Concept Antistatic Cleaner
- Concept Glass Promoter

### SUITABLE SUBSTRATES

- Glass.

### MIXING RATIO

- If required 2K Thinner can be used if required.

### APPLICATION

- Clean the glass surface thoroughly either with Concept Antistatic cleaner or a detergent, ensuring all contaminants is removed. Make sure if using detergent no residue is left behind on the glass.
- Using a suitable lint free cloth apply the Concept Glass Promoter to the surface of the glass and ensure that no streaks occur (spraying recommendation below).
- Wait for 30 minutes before applying the Basecoat Colour.

- Apply the No Mix Basecoat colour as suggested on the Technical Data Sheets.
